

Quinfosys Developer Handoff Checklist

Compact final QA checklist for sub-site delivery, design conformance, responsive behavior, and handoff readiness.

Document 04 · Quinfosys Developer-Facing Design Framework · Version 1.1

1. Acceptance gate

A Quinfosys sub-site or page passes handoff only when every applicable item below is complete. Failed items require correction before delivery.

Gate	Required pass condition	Status
Visual conformance	Palette, typography, radii, spacing, icons, and section rhythm match the documented visual system.	Pass / Fail
Interaction conformance	Navigation, buttons, cards, accordions, route motion, reduced motion, and focus states behave consistently.	Pass / Fail
Responsive conformance	320px, 390-430px, 640px, 768px, 1024px, 1280px, and 1536px+ checks pass without overflow.	Pass / Fail
Handoff conformance	Footer, page ownership, links, build result, and reviewer sign-off are complete.	Pass / Fail

2. Core visual checklist

Area	Required checks	Status
Color system	Repository monochrome colors are used as default. #007ACC appears only in engineering blueprint, product-system, architecture, or technical visualization sections.	Pass / Fail
Blueprint palette	Only Blueprint 950, 900, 800, 700, and 600 are present. Blueprint 600 is accent-only. Lighter blueprint shades are absent.	Pass / Fail
Typography	Active body stack is SF Pro Text, Inter, ui-sans-serif, system-ui, sans-serif. No random font families are introduced.	Pass / Fail
Shape and spacing	Buttons, cards, panels, icon holders, and CTA blocks use documented radius tokens and spacing rules.	Pass / Fail
Iconography	Lucide-compatible or Untitled UI line icons are used. Stroke width remains 1.35-1.55. Touch icon containers remain 44px.	Pass / Fail

3. Interaction and responsive checklist

Area	Required checks	Status
Navigation	Desktop nav appears at lg and above. Mobile nav appears below lg. Menu opens, closes, locks scroll, closes on Escape, and updates aria-expanded.	Pass / Fail
Buttons and cards	Primary, secondary, icon, and blueprint buttons include hover, active, and focus states. Cards change border, background, or shadow calmly.	Pass / Fail
Accordions and motion	Expanded/collapsed states animate cleanly. Chevron rotation is visible. prefers-reduced-motion support is verified.	Pass / Fail
Responsive QA	320px has no horizontal overflow. 390-430px mobile stack is clean. 640px and 768px grids remain readable. 1024px desktop layout activates.	Pass / Fail
Accessibility	Keyboard access, visible focus states, icon-only labels, logical heading order, meaningful alt text, decorative-image hiding, and link testing are complete.	Pass / Fail

4. Delivery checklist and sign-off

Area	Required checks	Status
Content QA	Hero copy, section copy, card copy, tags, and CTA text fit documented length and hierarchy targets.	Pass / Fail
Build QA	Production build passes. Internal routes, external links, email links, phone links, and footer links are verified.	Pass / Fail
Document format	Handoff documents use empty header, centered footer, page numbers, minimum 11pt text, and non-splitting tables.	Pass / Fail

Role	Name	Date	Status
Developer			Approved / Changes required
Brand owner			Approved / Changes required
QA reviewer			Approved / Changes required
